Introduction

Brighton Council continues to set new standards of achievement in local government in Tasmania and has shown what can be achieved by the local community and council working together. In fact Brighton is used by many as an example of what would have been lost if the forced amalgamations of councils had been carried out.

Brighton has been recognised nationally by winning two prestigious awards; the National Awards for Innovation in Local Government - Community Services Category which was contested by eighty councils from across Australia and the Banksia Environmental Foundation Awards - Local Agenda 21 Category.

These awards acknowledge what can be achieved by a small council with relatively few resources. They also reflect the way Brighton Council does its business by considering the three pillars of sustainability; environmental, social and economic well being.

Having been quite successful in the environmental and social areas, Brighton increased its focus on economic development in 1999/2000 as illustrated by the following three projects.

- An agreement has been reached with the state government and TOTE to transfer ownership and management of the Brighton Racecource and Training Facility to the council,
- Council has established Microwise Australia Pty Ltd with the state government as an equity shareholder to develop and market computer software and
- Council was instrumental in establishing the Southern Region Irrigation Development Board to promote and facilitate the supply of bulk irrigation water to the greater Hobart region.

So much has happened in 1999/2000 to build a bright future for the Brighton community. The various initiatives and achievements will be highlighted by the Mayor and General Manager and the operational reports.

If you would like further information or wish to comment on any aspect of Council please contact the General Manager, Geoff Dodge, who will be pleased to help.

Mayor's Address

1999/2000 was another banner year for Brighton, We have a good report card and our achievement in winning national and state awards are very gratifying.

I was very proud of our community, our council and our staff as I accepted the Banksia Environment Award in Sydney; won against strong competition from much larger and wealthier organisations.

In my opinion the reason for our success at every level is how we work as a team, councillors and staff, for the benefit and development of our community.

While highlights of the year are covered throughout this report I will mention two milestones especially dear to my heart:

Firstly, the realisation of a far reaching goal set by council back in 1993 to cease all sewage effluent discharge to the Derwent and Jordan Rivers by the year 2000. In late December 1999 we started pumping sewage effluent from the treatment plant at Bridgewater to farm dams at Old Beach and Tea Tree for agriculture irrigation.

Secondly, the involvement of so many in our community with the Kosovars at the Brighton Army Camp. We can all hold our heads high about the number of volunteers and generous donations that came from Brighton. My own trip to Kosovo to visit the returned refugees was one of the most emotional experiences I have ever had. With the assistance of the state government we began establishing a sister city relationship with FERIZAI in Kosovo. I'm confident that through exchanges and regular contact our community can maintain the close ties that were formed at the safe haven.

There is definitely more to local government than roads, rates and rubbish and throughout the year Council continued to speak out on non-traditional local government issues. I believe that we were able to do this with authority because of our record and because we continue to provide god service to our residents.

On behalf of all councillors I commend this annual report as testimony to a successful year.

General Manager's Report

Introduction

With the threat of amalgamation and uncertainty behind us, 1999/2000 enabled Council to progress with those issues that had been identified in the strategic planning process.

There were many important issues dealt with during the year and this report will highlight a few of those issues.

During the year, Council was again recognised for its work within the areas of Community Development and the Environment, bringing the total of Awards to seven within two years, with five state and two National Awards.

BURP

BURP (Bridgewater/Gagebrook Urban Renewal Program) has continued to provide valuable support to the local community and Council is proud to be able to provide staff to the Board of Directors, where Ron Sanderson (Deputy General Manager) has been the Chairman since its inception, and I have been Treasurer since its inception.

Council also support BURP financially with an Annual Grant.

Microwise

Microwise Australia Pty Ltd, the Council owned computer company continued to operating dur the last year.

The main product known as Propertywise is being considered by a number of Councils both in Tasmania and on the mainland, and the Directors are confident that the number of users will be expanded in the next year.

However, Microwise developed a new Immunisation Program known as Vacciwise an this has been sold to several Councils all over Australia and sales are expected to continue.

Other Specific Industry Programs are in the process of being developed and the future of Microwise as a company is almost assured if the current trends can continue.

Resource Sharing

Council continued to explore areas of cost savings by sharing resources with neighbouring Councils.

During the year Council negotiated with Hobart City Council to maintain sports grounds within the Brighton area, and the results have meant that the grounds have never looked better, and there has been a cost saving to Council.

This latest venture is an expansion of the Resource Sharing that Council has been involved in over the last few years, where Council hires road making equipment from other Councils as well as local Contractors, and also where Council hires out to other Councils our Flocon machine, which is a specialised road sealing vehicle.

Jordan Cluster

The Jordan Cluster comprises the principals of the eight Schools in the Brighton Municipality and Senior Council Officers.

In September 1999, I attended a meeting of Principals from all the Schools in the Southern part of Tasmania and the purpose of that meeting was to discuss ways that Schools and Local Government could work closer together.

As a consequence of that meeting, we have been meeting regularly to discuss issues that are common to both the Schools and Councils.

Some of the issues that have been discussed include the following:-

- Sharing Resources for maintenance of grounds;
- Early Intervention Parenting Projects;
- On-line Access Centre;
- Local Security Co-operative;
- Municipal Sports Day.

Brighton Community News (BCN)

In an effort to improve communication with our Community the Council held a meeting with interested residents, business people and community leaders last May and as a consequence the first edition of Brighton Community News was issued in August 1999.

Brighton Community News is issued 11 times a year and is an 8 page tabloid size newspaper that covers community news for the Brighton Municipality.

The newspaper also provides local business people an opportunity to market their business to the local people at a reasonable advertising rate.

Although the paper has not attracted as many advertisers as Council would have hoped for, it has been well received by the Community and has proven to be a valuable tool for Council to communicate with its residents.

It is interesting to note that other Councils, both interstate and within Tasmania are interested in the format of BCN and one Tasmanian Council has already changed the format of their Newspaper to the same as BCN.

Whilst the newspaper promotes Council News it also encourages members of the community to submit articles and stories that are of human interest to the whole of the residents of Brighton.

The Council is very proud of the Newspaper and appreciates the assistance received from the Community to ensure that the paper is well received by the Community.

Youth Activities Service

The Brighton Youth Activities Service operates from 1c McShane Road, Bridgewater – adjacent to the Bridgewater High School. The Service is targeted at young people between the ages of 11 and 16. The Service offers programs after schools hours during school terms and also offers a School Holiday Program during the holidays.

The Co-ordinator/Family Liaison Worker, Robyn Tringrove had resigned in June and there have been two new appointments made. Robyn had been very successful year in running the Service since the restructure in early 1999.

The Family Liaison Worker's role is to provide practical support and guidance to young people and their families to help them deal with difficulties such as family conflict, lack of communication or other issues affecting their well-being as a family and to refer them to other specialist services as required.

The Service is funded by both the Commonwealth Government and Council and is run by a Management Committee, comprising local public servants and businesses.

Environment and Development Services

Environmental and Public Health

Objective

To protect existing and future residents from health hazards and amenity loss by ensuring a healthy environment and an effective and efficient level of service to the community.

Action Plan

Food

Educate food handlers in risk assessment and introduce food safety plans.

Rank food establishments into health risk categories.

Expand the food sampling program.

Immunisation

Promote Council's role and the need for immunisation.

Continuation of the monthly public immunisation clinics and the annual schools immunisation program.

Septic Tank & Waste-water Disposal Systems

Promote cost effective and sustainable septic tank and waste-water disposal systems for new and existing installations.

Potable & Recreational Water Supplies

Ensure water supplied to the public is safe and potable.

Improve the quality of the municipality's recreational waters.

Environment

Ensure a balanced environment free from health threats and discomfort arising from nuisances or physical events.

Performance

Council's Environmental Health section continues to offer a wide and varied service to the public that is innovative and incorporates best practice technology to ensure the enhancement of the environment and public health, not only within the Brighton municipality but also in other areas.

Environmental Health Officers, John Parkinson (Senior) and Paul Garnsey

Responsibilities

Immunisation; health education; safe and properly

described food; safe water supply; disease containment; environmental management; pollution

control; and on-site domestic wastewater management.

Installation of updated immunisation recording system - VacciWise

Early in the year the immunisation software was re-written with the aid of environmental health staff and the new version, re-named 'VacciWise' was installed for Council staff use. The re-vamped software offers a greater range of functions and flexibility making the vaccination data storage and retrieval process simpler and significantly more time efficient.

Significant gains have been made by being able to store and retrieve data on-site (via a lap top computer) during the vaccination process, which saves unnecessary time in updating records after the event. The software also allows for the fast production of immunisation certificates; has a wide range of reporting facilities allowing a pro-active approach to immunisation; and can electronically up-load information to the Australian Immunisation Register (ACIR) negating the need for manual forms to be completed. The 'VacciWise' program is now available nationally and is marketed by Council's IT section, Microwise.

Immunisation statistics for 1999/2000

This financial year saw an increase in the total number of vaccinations provided by Council, which reflects an increased confidence in the immunisation staff by the community. Positive community feedback has been particularly directed to Council's Medical Officer of Health, Frances Donaldson and nurse Hazel Wardlaw. Their efforts have contributed to an increase in numbers utilising Council's monthly immunisation clinic.

Council's monthly clinic attracted 280 people over the year, which accounted for 606 individual vaccinations. As well as offering a monthly clinic, Council visits all schools in the municipality, the major emphasis being on providing Hepatitis B vaccinations to grade 6 students. From a total of 182 eligible students in grade 6, 148 (81%) were vaccinated.

Taking into account members of the community in general, students, teaching staff and Council staff a total of 533 different people were vaccinated representing 1443 individual doses of vaccine.

Food Education

Our first FoodSafe award has been presented to the Brighton Hotel who has made significant improvements to their food hygiene practices to be the first food premises to be awarded the FoodSafe Certificate within the municipality. Three other premises qualifications and practices are currently being assessed.

Since the introduction of the FoodSafe program there has been marked improvement on food hygiene and safety practices by food handlers and delivery personnel. Environmental Health Officers will continue to encourage other food premises to complete the training program.

In addition to FoodSafe, health officers are introducing the 'Healthy Options Tasmania' (HOT) award program to food outlets to encourage the proprietors to offer healthy choices in food for sale to the public.

Brighton Hotel proprietors and staff accept their FoodSafe award.

Both programs are part of the ongoing food hygiene audits of all food premises and food vehicles.

Food Sampling

Council's food sampling program continues and Environmental Health Officers' participate in a regional and state food sampling program. In an increasingly health and dietary conscious society, identification of the true composition of foods plays a valuable role in consumers' well-being.

Potable Water Quality Report - 1999/2000

<u>Water Supply</u> - Bulk water is supplied to the municipality by Hobart Water.

<u>Controlling Authority</u> - Storage reservoirs within the municipality and the subsequent

reticulation system are controlled by Brighton Council. Each of the five reservoirs within the municipality are gravity fed from

the Cobbs Hill reservoir operated by Hobart Water.

<u>Catchment Details</u> - As per Hobart Water. Nil catchment or supply from within

municipality.

<u>Treatment Processes</u> - As per Hobart Water. Water is treated at the Bryn Estyn Treatment

Plant and is subject to the following:

Screening;

Coagulation/flocculation;

Sedimentation:

Filtration; Fluoridation; Storage; and

Chlorination (disinfection).

Note: subsequent chlorination of municipal reservoirs is done on a need basis and is influenced by environmental conditions such as the undertaking of works (maintenance/cleaning) on the reticulation system.

<u>Type of Sampling</u> - Bacteriological analysis.

<u>Location of Sampling Sites</u> -

1 Cobbs Hill Road, Bridgewater. Old Council Chambers, Pontville. Tea Tree Hall. Council Chambers, Gagebrook. Old Beach Recreation Centre.

EHO, Paul Garnsey samples potable water supply

BRIGHTON COUNCIL ANNUAL REPORT 1999 - 2000

<u>Sampling Details</u> - Frequency - monthly

Number - 5 samples per month

Timing - begin sampling at approx 9.00am on nominated days

Dates for 1999/2000:

 12/07/99
 10/01/00

 16/08/99
 14/02/00

 21/09/99
 13/03/00

 11/10/99
 17/04/00

 08/11/99
 15/05/00

 13/12/99
 13/06/00

<u>Tests performed</u> - Total coliforms

Thermotolerant coliforms

<u>Laboratory</u> - Public Health Laboratory (NATA accredited)

Results of sampling -

<u>Interpretation of Results</u> -

Water quality is of a very high standard. Residual chlorine is sufficient to provide longer term protection in most cases.

Throughout the year there were eight departures from the NH&MRC Australian Drinking Water Guidelines 1996 which stipulate that no samples should contain any coliforms or thermotolerant coliforms per 100ml. Mostly, the failed samples indicated very low numbers of 'total coliforms' however one significantly high result was obtained (70) at the Old Beach Recreation Centre sample point. Further investigation revealed the reservoir servicing this area was being drained for cleaning/maintenance. During the 7 to 10 days it takes to empty the reservoir and with no input of chlorinated water, residual chlorination levels fell to zero. Reservoirs with extended periods of drainage are now progressively chlorinated.

Of the eight failed samples, one returned a small (6) but positive result for thermotolerant coliforms. Although the matter was investigated, no definitive explanation can be given for the failure. The reservoir supplying the sample site is unroofed and the surrounding area is primarily farmland suggests possible windblown contamination of the reservoir.

In all cases corrective action (mostly dosing reservoirs and scouring lines) and subsequent sampling occurred until samples fell within the guidelines.

System Upgrading -

Funds have not been allocated to construct covers for Council reservoirs, however priority funding will be sought in 2000/01.

Environmental and Public Health Management

Council's Environmental Health Officers' continue to monitor and manage environmental issues such as – noise, rubbish accumulation, pests, backyard burning, odour, wastewater disposal and toxic chemicals.

Evaluation of all proposed developments for compliance with environmental health legislation is also undertaken.

The most common among many environmental health problems dealt with

during the year have been - septic tank effluent, noise and rubbish accumulation. The Environmental Management & Pollution Control Act, Public Health Act and the nuisance sections of the Local Government Act as well as education articles in Council's newspaper control these issues.

Preservation of our natural environment is central to our long-term welfare with sustainable development strongly encouraged.

drumMuster a national program for the collection and recycling of empty, clean farm chemical containers was introduced during the year.

Council's Environmental Health Officers' again demonstrated their awareness towards preserving the natural environment by inviting five (5) other regional Councils to participate in the program. A regional collection centre has been developed at the Cove Hill Road Waste Transfer Station where cleaned chemical containers are accepted for recycling from all Hobart regional Councils.

Drums are accepted preferably on Tuesdays by prior appointment.

Council's vision is not only to promote the enhancement of our local environment, it is also to share our awareness with neighbouring Councils and help protect and improve regional environmental amenity.

Glamorgan Spring Bay has expressed interest in contracting Council's services to help them with their drumMuster program.

Alternate Home Expo

The Alternate Home Expo was held at the City Hall and was again a great success with Council's environmental health officers promoting Council's innovative expertise in on-site waste disposal and effluent re-use.

Brighton Council is a major sponsor of this event and has proven to be a very beneficial promotion for Council with lots of positive public feedback.

On-site Domestic Wastewater Management

Council's environmental health section continues to lead by example in this field.

Trials on innovative alternate on-site wastewater disposal systems using the latest technology continue with two different types of sand-filtration systems completed.

This project is for three years and is 50/50 funded by the Natural Heritage Trust and Brighton Council.

The aim of the project is to trial alternative domestic wastewater treatment and disposal systems using the latest technology and innovations. Upon completion of the project, an application will be made to have the systems accredited and consequently give the public and local government E.H.O's a wider choice of suitable and sustainable wastewater disposal systems for domestic use.

- 1) An aerobic re-circulating sand filtration system that relies only on natural microbiological processes for treatment.
 - The effluent is sub-surface irrigated to a landscaped garden area using drip irrigation onto selected Tasmanian native trees and shrubs.
 - This system has been operating for 2 years with minimum maintenance and is consistently producing an effluent quality of T.F.C.100 T.S.S. B.O.D: 10.
- 2) An intermittently dosed slow sandfilter using much finer graded medium.
 - This system has a 6000 litre primary treatment chamber. Effluent is discharged through a rock-filter planted with wetland plants prior to the main sandfilter closing chamber.

The closing chamber automatically times the effluent dosing rate of the sandfilter that in turn pre-filters and re-circulates a percentage of the dosed effluent back through the primary treatment chamber. The naturally treated effluent is disposed through a 6-port rota-valve that distributes the effluent into a 200 m_ lawn area through wasteflow dripper tube 4 litre/s. The rota-valve in turn irrigates five other separate landscaped garden beds through adjustable drippers.

This system treats 800 litre of effluent per day and is consistently producing T.F.C. L5, T.S.S. L5, B.O.D. L5.

Two other systems are planned for the next financial year: 2000/01.

- 1) Filtered septic tank system utilising disc filters from New Zealand and a selfcleansing UV disinfection system.
- 2) An extended aeration and activated sludge system utilizing OZONE for dis-infection of effluent.

NOTE:

All the above systems are based on re-use of the treated effluent in landscaped garden beds without the use of chlorine as a dis-infection agent.

- 3) A catchment study of the Baskerville area will also be undertaken during this period and will include:
 - a) Performance of existing septic tank systems.
 - b) Recommendations on suitable waste disposal systems for this area.
 - c) Mapping of existing and potential erosion prone areas.
 - d) Recommendations on rehabilitation and maintenance of erosion prone areas.
 - e) Identification of areas unsuitable for sustainable development.
 - f) Recommendations on maintaining sustainable development.

This report will be available for current owners and developers of this area.

New Australian Standard AS/NZS 1547: 2000

A new standard will be introduced in July 2000 that will ensure the enhancement of the overall performance of on-site wastewater practices.

It will stipulate long-term performance objectives and ensure that sound and sustainable public health and environmental outcomes are achieved.

The failures of the past will be rectified and are due to a lack of understanding of the systems by the users, inappropriate tank capacities and poor siting and design of the land application system.

To ensure a sustainable on-site domestic wastewater system and protection of public health and the environment, a system of management and controls needs to be in place.

The standards committee considers that the responsibility of a system of management and controls falls to the regulatory authority to take up and put in place, whether the regulatory authority or private contractors carry it out, it needs to be instigated for the greater benefit of public health and the environment. Ref: AS/NZS 1547:2000.

Animal Control

To have a healthy environment and level of service equivalent to community expectations.

Action Plan

Maintain an effective dog control program.

Performance

- Successful completion of household checks has increased the level of registrations by 12%.
- The level of complaints in respect to animal nuisances has increased to 711 and has necessitated a full seven day a week, 24 hour service, to ensure complaints are promptly responded to.

Operational Plan Highlights

Land Use Planning and Building Services

Objective

To encourage and manage development in order to promote an increased level of amenity and wealth in the environmental, social, economic and cultural facets of the municipality.

To promote the safety and amenity of the built environment and monitor and have input into the development of the Tasmanian Model Building Act.

Action Plan

Undertake strategic planning to promote sustainable development.

Increase community consultation.

Prepare and implement a new planning scheme.

Ensure compliance of requirements of the regulations made under the Australian Building Code.

Improve timeliness of building plan approvals using principals of the Local Review Approvals Program.

Ensure public access complies with the Disability Discrimination Act .

Performance

- Council has finalised a new Planning Scheme to replace the previous planning scheme and Interim Order of 1992. Implementation is anticipated during 2001.
- Development applications have increased to 201. Increases in industrial and commercial activities have contributed to the expansion of the economic base.
- Subdivision applications number 18 and delivered 78 new lots. This is a significant number to past years and whilst many proposals are staged, the long term production of new residential lots will continue to attract new house development, particularly at Brighton.
- Council agreed to initiate a policy to reduce rates on home owners eligible for the \$7,000 first home buyers Commonwealth package. It is hoped this will attract new residents to the municipality.

 Catchment Management Planning has continued in the Jordan Catchment with the final draft of the Plan being prepared for public comment. Additionally works have commenced on a new park at Brighton along the watercourse as a link between Andrew Street and Pontville Oval.

Building

Council has continued to maintain a steady building growth rate despite a general slowing of the industry and introduction of the GST. A total of 204 building permits have been issued with a value of \$8.3m. This represents an increase in dollar terms of 24% to the previous annual turnover.

Brighton has also entertained a resource sharing service to Derwent Valley, Southern Midlands and Huon Valley Councils which has successfully provided these Councils with a high level of professional support.

Both building and planning approval rates have maintained the ongoing level of economic support for Brighton as a place to live and work. There is no indication this will not continue in the future.

Community Services

Family Day Care

Objectives

To provide a professional, home-based child care service that will meet the continually changing needs of our community.

To work to Quality Assurance criteria.

Action Plan

Identify the areas of greatest need for child care within the municipality

Structure the service to meet this need

Prepare the service for accreditation

Performance

The name of the service was previously changed to Brighton Children's Services to indicate the growth and diversity of the service - Family Care, Vacation Care, Before and After School Care.

Family Day Care

Building good working relationships with schools in the area, in particular Greenpoint Primary School. Strong focus on assisting children to be "school ready" through Carer training and support

Continued involvement with Kids Expo and other community activities that promote quality child care.

Before & After School Care

Now established at Brighton Primary School. Utilisation is steadily growing.

Vacation Care

Operates from Pontville Hall. Growth has exceeded all expectations. The service has expanded by ten extra places

Networking for Harmony Project

The Networking for Harmony Project is one of three projects in Tasmania to have been funded under the *Living in Harmony* initiative.

The Networking for Harmony Project is a joint project of the Brighton, Hobart, Glenorchy, Clarence and Kingborough Councils, the Migrant Resource Centre, the Ethnic Communities Council and Australians for Reconciliation. It is managed by a Steering Committee made up of representatives of the above organizations.

The Project aims to bring together individuals, community services/organizations and local Councils to develop community plans and programs to counter racism and cultural isolation. This will be achieved by hosting community meetings in each Council area to identify issues and possible strategies for dealing with such problems. The strategies will then be incorporated into community plans and a local Steering Committee will be formed to oversee the implementation.

Brighton Council will be hosting local Community Meetings during next financial year, with the possibility of the outcome strategies being incorporated into Council's short term and long term community plans.

Physical Services

Roads

Objective

To maintain the road network to a standard that is acceptable and safe for the travelling public and other road users.

Action Plan

Maintain all roads within the road network to a level that is the same or equal with their importance within the network.

Ensure that all roads are in a safe and trafficable condition for vehicles and pedestrians at all times.

Maintain the drainage system to a level that minimises adverse environmental impact on the Derwent and Jordan River systems

Improve the standard of unmade roads taken over by Council.

Performance

Reconstruction works on Briggs Road and Jubilee Avenue in Brighton.

Construction of stormwater works at Augusta Street Brighton.

Sealing further stages of Baskerville Road, Honeywood and Back Tea Tree Road, Tea Tree.

Resealing works in Bridgewater, Brighton and Honeywood.

The second stage of new storm water works from Brighton Primary School towards Andrews Street was completed.

Bridges

Objective

To maintain all bridges, culverts and pedestrian underpasses that are part of the road network, to a standard that is acceptable and safe for the travelling public and other users.

Action Plan

Maintain all bridges, culverts and pedestrian underpasses at a level that provides essential vehicle access to all affected properties.

Ensure that all bridges, culverts and pedestrian underpasses are safe for all users.

Performance

Undertook a condition assessment and updated the preventive maintenance program for the bridge network.

Sewerage

Objective

To maintain the sewerage system to a standard that will adequately convey and treat effluent without adverse effect to the environment.

To treat effluent to standards required by the Department of Environment and Land Management.

Encourage the reuse of sewerage effluent

Action Plan

Ensure that all sewage pump stations are maintained at a level that does not create a health hazard, pollute the environment or create a nuisance.

Operate the sewage treatment plants to the requirements of the Department of Environment and Land Management and not create a nuisance to the surrounding properties.

Performance

Completed the major project to recycle sewerage effluent from the Greenpoint Wastewater Treatment Plant at Bridgewater. Some 18 km of pipeline and 4 pumping stations were constructed by Brighton Council assisted by a Commonwealth Coast and Clean Seas grant of \$788,000. Water from the Bridgewater Treatment Plant is pumped to Old Beach and Tea Tree to on site storage dams on three large farms. These farmers also constructed some 6 km of pipelines and purchased new irrigation systems.

The discharge to the Derwent River ceased in late December 1999 which met Council's strategic objective to cease all sewage discharge to the river by the year 2000.

Details of this project are available from Council's office or on its web site.

An automated inlet screen was installed at the Greenpoint Treatment Plant.

A computer control system and radio telemetry was installed at the Greenpoint Treatment Plant and numerous pump stations.

Water Supply

Objective

To maintain the water supply storage reservoirs and reticulation system to a standard that will supply potable water to all existing consumers with minimal interruption.

Action Plan

Maintain all water storage reservoirs and water mains at a standard that will ensure the supply of potable water to all consumers, is within the accepted health standards.

Ensure that adequate supply and pressure are preserved for both domestic and emergency use.

Performance

Council was instrumental in establishing the Southern Region Irrigation Development Board which is chaired by Mayor Foster. This board is promoting the establishment of new infrastructure to bring fresh water from the Derwent River to the dry farming areas of the Hobart region.

A new water line was installed to Back Tea Tree Road from Honeywood.

Public Buildings

Objective

To maintain all public buildings to a standard that protects the asset and encourage use by community groups and the general public.

Action Plan

Maintain public buildings to a level that is commensurate with the use, location and patronage.

Performance

A new office was established at the Brighton Central Shopping Complex to provide council services for the Brighton/Pontville area and for Microwise Australia Pty Ltd.

Reserves

Objective

To maintain all passive recreational areas to a standard that is acceptable, safe and accommodates the needs of all sporting groups.

Action Plan

Ensure that all active and passive recreational areas are maintained at a level that is commensurate with their importance, use and location in the residential areas.

Ensure that all playgrounds are acceptable and safe for all users.

Performance

Improvements were undertaken at the foreshore reserve at Old Bridgewater and at Tottenham Park, Gagebrook.

A resource sharing arrangement was reached with Hobart City Council to use its parks and reserves staff to maintain Brighton's ovals. Hobart's expertise and specialised equipment have improved the standard of council's well-used facilities.

Brighton Council became a major sponsor of the Brighton Football Club which recognises the importance of the club to the community and its ongoing contribution to improving the facilities at Pontville Park.

Use of a preventative maintenance program for all playgrounds to address safety and maintenance matters.

Waste management

Objective

Maintain a waste management system that promotes a healthy environment and a level of service equivalent to community expectations.

Action Plan

Maintain a high level of service for the kerbside collection of garbage and recyclable material.

Maximise reduction of waste to landfill.

Performance

Ensured that the waste management contractor operated the Bridgewater Waste Transfer Station and domestic garbage collection service in an efficient and effective manner.

Extended the contract for waste collection and transfer station operation.

Participated in the Southern Waste Strategy Board strategy development and implementation.

Other Services, Resource Allocation

Administration and Finance

Objective

To manage Council finances and co-ordinate Council resources in an efficient and responsible manner.

Provide information and record management to meet the needs of Council decision making process and policy formulation.

Action Plan

Maximise the use of any available grant funding, through the active pursuit and lobbying of State and Commonwealth Governments.

Develop a rating policy that can be contained within Council's existing financial framework. Minimise Council level of debt write-offs.

Implement a financial model that will satisfy the specific needs identified in the Strategic Plan. Ensure all residents have equal access to Council services and information.

Performance

The Financial Management of Brighton Council continued to improve with favourable key financial indicators during 1999 - 2000. Brighton Council's percentage of Debt to Revenue decreased during the financial year thanks to responsible financial management by staff and councillors. For 6 years now Council's debt ratio has been steadily falling and will continue to fall with no new loan requirements for the financial year ending in June 2001. Against the trend of most Tasmanian Councils, Brighton again managed to hold its rate increase to less than CPI.

Other highlights of the year include the successful implementation of Navision, our new financial management system. Our new system allows for improved financial information, particularly with regard to job costing for our infrastructure assets. The ease of use and interrogation power of our new financial system compliments our highly successful property system "PropertyWise" developed by Brighton Council IT Manager Scott Smith. Both systems are fully integrated and provide for seamless data transactions in a true windows environment.

The service to residents of the Brighton and Pontville areas was improved with the opening of a new office at the Brighton Central Shopping Complex on the Midland Highway, Brighton.

Human Resources, Plant And Equipment

Objective

Optimise the utilisation of Council's existing staff, plant and equipment resources in an efficient and responsible manner.

Action Plan

Provide commitment to continued development of the existing Enterprise Bargaining Agreement based on the premise of equality and measurable productivity improvement.

Implement resource sharing of staff, plant and equipment with other Council's.

Maintain existing staffing, plant and equipment levels.

Performance

Resource sharing of Council staff and plant with neighbouring councils.

Use of a temporary placement agency to fill casual vacancies and functions in the office and outside workforce.

Each Brighton Councillor has been supplied with a personal computer and is connected into Councils wide area network. This enables information to be transferred via e-mail to and from all staff and elected officials.

The essential equipment was checked and Council's normal contingency plans were put on alert in preparation for the "Y2K Millenium Bug". The year 2000 arrived and passed without any problem to Council's operations.

Locals were used extensively for works, particularly in the major effluent re-use project which was mainly constructed by three local contractors.

Councillors as at 30TH June 2000

Cr Tony Foster

Councillor for almost 13 years, Mayor since 1993

Committee Representation:-

- Executive Committee (Chairperson)
- Finance Committee (Chairperson)
- Environmental Advisory Committee (Chairperson)
- Community Advisory Committee
- Enterprise Bargaining Committee

Council Representative:-

- Hobart Metropolitan Councils Association
- Hobart Regional Water Authority

Cr Ted Jeffries

Councillor for just over 7 years, Deputy Mayor since 1996

Committee Representation:-

- Executive Committee
- Parks & Recreation Committee (Chairperson)
- Brighton Planning Committee
- Finance Committee
- Solid Waste Management Committee (Chairperson)
- Enterprise Bargaining Committee

Council Representative:-

Southern Tasmanian Waste Management Authority

Cr Philip Owen

Councillor for just over 11 years

Committee Representation:-

- Executive Committee
- Brighton Planning Committee (Chairperson)

Council Representative:-

- Measuring Council Performance Steering Committee
- Natural Heritage Trust Management Committee

Cr Lois Rainbird

Councillor for just over 16 years

Committee Representation:-

- Parks & Recreation Committee
- Finance Committee
- Brighton Access Advisory Committee

Council Representative:-

- Brighton Junior Council
- Bridgewater High School Council
- Gagebrook Primary School Council

Cr Darren Purcell (Resigned 7th February 2000)

Councillor for just over 3 years

Committee Representation:-

- Parks & Recreation Committee
- Brighton Planning Committee

Cr Barbara Curran

Councillor for almost 4 years

Committee Representation:-

- Pontville Special Committee
- Finance Committee (until 20/3/00)
- Brighton Planning Committee (from 20/3/00)

BRIGHTON COUNCIL ANNUAL REPORT 2000 FINANCIAL REPORT

INDEPENDENT AUDIT REPORT

To the Councillors of the Brighton Council

Scope

I have audited the financial report of the Brighton Council comprising Operating, Financial Position, Changes in Equity and Cash Flows Statements and notes thereto, for the year ended 30 June 2000. The General Manager of the Brighton Council is responsible for the financial report. I have conducted an independent audit of the financial report in order to express an opinion on it to the Councillors.

The audit has been conducted in accordance with Australian Auditing Standards to provide reasonable assurance whether the financial report is free of material misstatement. My procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion whether, in all material respects, the financial report is presented fairly in accordance with Australian Accounting Standards and other mandatory professional reporting requirements so as to present a view which is consistent with my understanding of the financial position of the Brighton Council, the results of its operations and its cash flows.

The audit opinion expressed in this report has been formed on the above basis.

Audit Opinion

In my opinion the financial report presents fairly in accordance with the Local Government Act 1993 and applicable Accounting Standards and other mandatory professional reporting requirements, the financial position of the Brighton Council as at 30 June 2000, and the results of its operations and its cash flows for the year then ended.

A J McHugh
AUDITOR-GENERAL

BRIGHTON COUNCIL

Statement by Councillors and Principal Accounting Officer In our opinion:

- (a) the financial report set out on the following pages presents fairly the financial position of BRIGHTON COUNCIL as at 30 June 2000 and the results of its operations for the year then ended in accordance with applicable Accounting Standards, Urgent Issues Group Consensus Views and applicable legislation; and
- (b) the financial report has been prepared in accordance with the requirements of the Local Government Act (Tasmania) 1993.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The significant policies which have been adopted in the preparation of this Financial Report are:

(a) Basis of Accounting

The financial reports of Council have been prepared in accordance with Accounting Standards, Urgent Issues Group Consensus Views, other authoritative pronouncements of the Australian Accounting Standards Board, the Corporations law and the Local Government Act 1993.

It has been prepared on the basis of historical costs and except where stated, does not take into account changing money values or current valuations of non-current assets.

The accounting policies have been consistently applied and, except where there is a change in accounting policy, are consistent with those of the previous year.

Where necessary, comparative information has been reclassified to achieve consistency in disclosure with current financial year amounts and other disclosures.

(b) The Local Government Reporting Entity

Council prepares a general purpose financial report that encompasses all business and non-business operations which Council controls, either directly or through the operation of controlled entities. These reports will detail all funds, assets and liabilities over which Council exercises or may exercise control. In the process of preparing the Brighton Council financial reports, the effects of transactions between Council and other controlled entities have been eliminated.

(c) Asset Valuations

The financial statements have been prepared in accordance with the historic cost convention. Assets are revalued at replacement cost unless greater accuracy may be ascertained by utilising historic costs in assets less than 5 years old. Assets have been valued as per the following:

- land and buildings: per the Valuer-General's determinations.
- plant and vehicles: per independent analysis.
- small machinery and tools: at written down original cost or where this cannot be identified, at written down replacement cost.
- equipment and furniture: at written down original cost or where this cannot be identified, at written down replacement cost per State Purchasing and Sales schedules.
- bridges: at current written down replacement cost or historic cost where applicable.
- sewerage/drainage assets: at current written down replacement cost or historic cost where applicable.
- water reticulation assets: at current written replacement cost or historic cost where applicable.
- road assets: at current written down replacement cost or historic cost where applicable.

(d) Acquisition of Assets

The cost method of accounting is used for the initial recording of all acquisitions of assets. Cost is determined as the fair value of the assets given as consideration, including architects fees and engineering design fees and all other costs incurred in getting the assets ready for use.

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT For the year ended 30 June 2000

(d) Acquisition of Assets (continued)

Non-monetary assets received in the form of grants and donations are recognised as assets and revenues at their fair value at the date of receipt. Fair value means the amount for which an asset could be exchanged between a knowledgeable, willing buyer and a knowledgeable, willing seller in an arms length transaction.

(e) Revaluation of Non Current Assets

All non current assets, other than inventories, land and investments are revalued to their current cost less accumulated depreciation every five to seven years.

The current cost of an asset means the lowest cost at which the gross service potential of that asset could currently be realised in the normal course of operations.

Revaluations do not result in the carrying value of non current assets exceeding the net amount expected to be recovered through the net cash inflows arising from their continued use and subsequent disposal.

(f) Depreciation of Non Current Assets

All non current assets, excluding land, are systematically depreciated over their useful lives in a manner which reflects the consumption of their service potential.

Depreciation is recognised on a straight line basis over the effective life of the asset, using rates reviewed annually.

Non current assets are those assets which provide a benefit to Council extending beyond twelve months. The current applicable rates of depreciation are:

| • | buildings | 50 years |
|---|---------------------------|-------------|
| • | plant and vehicles | 5-15 years |
| • | small machinery and tools | 3-8 years |
| • | equipment and furniture | 5-10 years |
| • | roads | 30 years |
| • | drainage/sewerage assets | 50 years |
| • | water supply assets | 15-80 years |
| • | bridges | 25-70 years |

(g) Asset Recognition Thresholds

The following asset acquisition limits will apply; assets acquired with values below these limits will be expensed:

| • | land | nil |
|---|---------------------------|---------------|
| • | buildings | \$5,000 |
| • | small machinery and tools | \$500 - \$999 |
| • | equipment and furniture | \$500 |
| • | roads | \$5,000 |
| • | drainage | \$2,500 |
| • | water supply | \$2,500 |
| • | bridges | \$10,000 |

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT For the year ended 30 June 2000

(h) Maintenance and Repairs

Maintenance and repair costs are expensed when incurred. If the maintenance costs significantly increase the economic life of an asset or the total value exceeds the written down current value, and the costs are consistent with the asset acquisition limits, then the costs will be capitalised.

All computer software costs will be expensed as forming part of the ongoing maintenance of up-to-date software.

(i) Employee Entitlements

i) Wages and Salaries

A liability for wages and salaries is recognised, and is measured as the amount unpaid at balance date at current pay rates in respect of employees' service up to that date.

ii) Annual, Sick and Long Service Leave

A liability of annual and long service leave is recognised, and is measured as the present value of expected future payments to be made in respect of services provided by employees up to balance date. In assessing expected future payments, regard is had to expected future wage and salary levels and experience of employee departures and periods of service. A distinction is made between the current and non-current long service leave liabilities, current for leave presently due and non current for leave accrued but not yet due. Related on-costs have also been included in the employee calculation.

Liabilities for employee entitlements which are not expected to be settled within 12 months are discounted using the rates as determined by Treasury at balance date.

No liability is recognised for sick leave as this is non-vesting.

iii) Superannuation

The superannuation expense for the reporting period is the amount of the statutory contribution the Council makes to the Municipal Employees Assurance Scheme, administered by the Local Government Association of Tasmania, which provides benefits to the employees.

The expense incorporates the amounts paid by Council on behalf of the employees to Tasplan scheme, as required under legislation.

(i) Investments

Investments are brought to account at cost. Interest revenues are recognised as they accrue.

(k) Land Held for Resale

Land held for development and/or resale is valued at the lower of cost or net realisable value. Cost includes the cost of acquisition, development and interest incurred on financing of that land during its development. Interest and other holding charges incurred after development is complete are recognised immediately as expenses. Revenues from sale of land are recognised in the operating statement on the signing of a valid, unconditional contract of sale.

Land and land held for resale are revalued at the date of each general valuation of property within the Municipality, the last such revaluation being 30th June 2000. Any revaluation increment or decrement is charged directly to the Asset Revaluation Reserve.

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT For the year ended 30 June 2000

(I) Rates, Grants and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the Council obtains control over the assets comprising the contributions.

Rating revenues are recognised at the commencement of the rating period or when the rates are levied. Uncollected rates at balance date are recognised as receivables.

Grants, donations and other contributions which are not subject to accompanying conditions that they be expensed in a particular manner or for a particular purpose are recognised as revenue in the reporting period when the Council obtains control over the assets comprising the contributions. Unreceived contributions over which Council has control are recognised as receivables.

To the extent that grant monies have not, at balance date, been expensed in a manner, or over a period, specified by a grantor, the nature of amounts relating to those undischarged conditions are disclosed in the Notes to the Accounts.

(m) Lease Liabilities

The Council's rights and obligations under finance leases, which are leases that effectively transfer to the Council substantially all of the risks and benefits incidental to ownership of the leased items are, initially recognised as assets and liabilities equal in amount to the present value of the minimum lease payments. The assets are disclosed as Furniture and Equipment under lease, and are amortised to expense over the period during which the Council is expected to benefit from the use of the leased assets. Minimum lease payments are allocated between interest expense and reduction of lease liability, according to the interest rate implicit in the lease.

Lease liabilities are allocated between Current and Non Current components. The principal component of lease payments due on or before the end of the succeeding year is disclosed as a Current Liability, and the remainder of the lease liability is disclosed as a Non Current Liability.

(n) Receivables

Rates and other debtors are carried at amounts due. The collectibility of debts is assessed at balance date and specific provision is made for any doubtful accounts. Settlement terms are 30 days.

(o) Accounts Payable

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether or not billed to the Council.

(p) Borrowings

Bank loans are carried on the Balance Sheet at their principal amount. Interest expense is accrued at the contracted rate and included in accruals.

(g) Revenue Recognition

i) Sales revenue

The gross proceeds of sales are included as revenue of the Council. The profit or loss on disposal of assets is brought to account at the date an unconditional contract of sale is signed.

ii) Interest Income

Interest income is recognised as it accrues.

2. FUNCTIONS/ACTIVITIES OF THE COUNCIL

(a) Revenues, expenses and assets have been attributed to the following functions/activities, descriptions of which are set out in note 2(c)

| Functions | E) | Expenses | Grar | Grant Revenue | Othe | Other Revenue | Totc | Total Revenue | Increase Operat | e/(Decrease) ing Capabilit | Increase/(Decrease) in Assets Attributed Operating Capability to Function/Activity | tributed n/Activity |

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT For the year ended 30 June 2000 2. FUNCTIONS/ACTIVITIES OF THE COUNCIL

(b) Total assets shown in note 2(a) are reconciled with the amounts shown for assets in the Statement of Financial Position as follows:

Current Assets \$ 1,886,170 Non Current Assets \$ 65,225,754

\$ 67,111,924

(c) The activities of Council are to be classified into the following functions:

• Administration/Corporate Services

Operation and maintenance of council chambers, administration offices, maintenance depots and plant and equipment, monitor revenue collections.

Water Supply

Construction, operation and maintenance of the water reticulation system, purchase and supply of bulk water.

Parks and Recreation

Development, operation and maintenance of parks, gardens, natural reserves and sporting facilities.

• Drainage/Sewerage

Construction, operation and maintenance of drainage & sewerage works.

• Planning & Building Services

Administration of the Town Planning Scheme and administration and co-ordination of building applications and monitoring the Building Code.

• Buildings

Construction, operation and maintenance of council buildings.

Roads/Bridges

Construction and maintenance of the road system.

Community Services

Monitor the welfare of the community, child care, family day care, youth activities and aged care.

• Environmental Health Services

Community health, environmental control, food surveillance, health standards, septic tank applications, pest control, dog and animal control, offensive trades, plumbing, places of public entertainment, caravan licences, complaints and counter disaster.

Waste Management

Operation of the waste transfer station, recycling programmes, monitoring and collection of refuse and sewerage collection and testing.

Unallocated Services

Other general services not specifically identifiable.

| NON CURRENT | | |
| Secured | | |
| Private Loans | \$6,588,268 | \$6,277,734 |

Security for Borrowings

The loans are secured over the general rates of the Council.

Financing Arrangements

Council does not currently utilise access to any overdraft facilities.

Council has corporate credit cards with a combined limit of \$5,000.

The current policy of Council is to minimise all borrowings and reduce existing debt.

| NOTES TO AND FORMING PART OF THE FINANCI | IAL REPORT For the year ended 30 June 2000 |
|--|--|
|--|--|

| | 2000 | 1999 |
|---|-----------|-----------|
| | \$ | \$ |
| 11. LIABILITIES - EMPLOYEE ENTITLEMENTS | | |
| CURRENT | | |
| Employee Leave Entitlements Provisions | | |
| Annual Leave | 174,328 | 160,368 |
| Long Service Leave | 165,771 | 228,184 |
| | \$340,099 | \$388,552 |
| NON CURRENT | | |
| Employee Leave Entitlements Provisions | | |
| Long Service Leave | \$43,640 | \$23,052 |

The provision for annual leave is established at a level sufficient to cover the liability due to employees for leave due in the current financial year plus accrued entitlements due. The provision for long service leave is established at a level sufficient to cover the liability due to employees. The current provision recognises these vested entitlements.

12. LIABILITIES - LEASES

CURRENT

| Lease Liabilities | \$0 | \$10,636 |
|---------------------------------------|-----------|-----------|
| See Note 26 for lease details. | | |
| 13. CURRENT LIABILITIES - OTHER | | |
| Deposits Held in Trust | 10,010 | 8,960 |
| Revenue Received in advance | 57,800 | 400,000 |
| DSD Investment in Microwise Australia | 150,000 | 0 |
| | \$217,810 | \$408,960 |

Deposits includes monies held in respect of damage indemnity, facilities booking and various performance related sureties.

14. NON CURRENT ASSETS - LAND

| Land - at Local Government valuation - 2000 | , , | 1,745,350 |
|---|-------------|-------------|
| Land – at Cost | 32,763 | 58,530 |
| | \$1 626 049 | \$1,803,880 |

Valuations of land were taken from the valuations provided by the Valuer-General. The revaluation of the municipality was performed in 2000, effective from 30 June 2000. Land valuations not specifically identified are based on adjacent site values.

15. NON CURRENT ASSETS - PLANT AND VEHICLES

| Plant and Vehicles at Cost | 950,693 | 917,326 |
|-------------------------------|-----------|-----------|
| less Accumulated Depreciation | (422,518) | (350,689) |
| | \$528,175 | \$566,637 |

Valuations of plant & equipment are based on original purchase prices.

| | 2000 | 1999 |
|--|----------|----------|
| | \$ | \$ |
| 16. NON CURRENT ASSETS - SMALL MACHINERY | | |
| Small Machinery at Cost | 76,231 | 73,581 |
| less Accumulated Depreciation | (56,696) | (39,494) |
| | \$19,535 | \$34,087 |

Valuations of small machinery are based on original purchase prices.

17. NON CURRENT ASSETS - FURNITURE AND EQUIPMENT

| Furniture and Equipment purchased on Finance Lease | 197,530 | 197,530 |
|--|-----------|-----------|
| Furniture and Equipment at Cost | 935,008 | 833,575 |
| less Amortisation of Finance Lease | (197,530) | (191,993) |
| less Accumulated Depreciation | (636,942) | (556,000) |
| | \$298,066 | \$283,112 |

Valuations of furniture and equipment are based on original purchase prices. Previously furniture & equipment was recognised at replacement cost up to June 1993 and at cost from that date. Predominantly furniture & equipment prior to 1993 has been replaced so is now fully recognised at cost.

18. NON CURRENT ASSETS - BUILDINGS

| Buildings at Valuation | 3,812,434 | 3,939,543 |
|-------------------------------|-------------|-------------|
| Buildings at Cost | 9,599 | 251,463 |
| less Accumulated Depreciation | 0 | (740,940) |
| | \$3,822,033 | \$3,450,066 |

Valuations of buildings were taken from the valuations provided by the Valuer-General. The revaluation of the municipality was performed in 2000, effective from 30 June 2000.

19. NON CURRENT ASSETS - BRIDGES

| Bridges at Replacement Cost | 1,524,788 | 1,295,000 |
|-------------------------------|-----------|-----------|
| Bridges at Cost | 0 | 27,306 |
| less Accumulated Depreciation | (897,306) | (646,181) |
| | \$627,482 | \$676,125 |

Valuations of bridges were prepared by the Engineering Department in consultation with Pitt & Sherry as at 30 June 2000.

20. NON CURRENT ASSETS - SEWERAGE

| Sewerage Assets at Replacement Cost | 15,842,333 | 13,243,987 |
|-------------------------------------|--------------|-------------|
| Sewerage Assets at Cost | 1,154,327 | 1,331,578 |
| less Accumulated Depreciation | (5,572,010) | (4,705,754) |
| | \$11,424,650 | \$9,869,811 |

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT For the year ended 30 June 2000 Valuations of sewerage assets were prepared by the Engineering Department in association with Pitt & Sherry as at 30 June 2000.

| | 2000 | 1999 |
|-------------------------------------|-------------|-------------|
| | \$ | \$ |
| 21. NON CURRENT ASSETS - DRAINAGE | | |
| Drainage Assets at Replacement Cost | 11,843,179 | 11,134,980 |
| Drainage Assets at Cost | 79,006 | 20,200 |
| less Accumulated Depreciation | (3,069,331) | (3,674,428) |
| | \$8,852,854 | \$7,480,752 |

Valuations of drainage assets were prepared by the Engineering Department in association with Pitt & Sherry as at 30 June 2000.

22. NON CURRENT ASSETS - WATER RETICULATION

| Water Reticulation Assets at Replacement Cost | 18,082,148 | 11,975,455 |
|---|--------------|-------------|
| Water Reticulation Assets at Cost | 15,040 | 1,632,059 |
| less Accumulated Depreciation | (6,489,775) | (5,100,154) |
| | \$11.607.413 | \$8.507.360 |

Valuations of water reticulation assets were prepared by the Engineering Department in association with Pitt & Sherry as at 30 June 2000. Water meters are now included in the water reticulation total. Previously they were identified separately.

23. NON CURRENT ASSETS - ROADS

| Road Assets at Replacement Cost | 50,950,575 | 40,226,602 |
|---------------------------------|--------------|--------------|
| Road Assets at Cost | 284,000 | 2,308,007 |
| less Accumulated Depreciation | (31,737,990) | (20,842,762) |
| | \$19,496,585 | \$21,691,847 |

Valuations of road assets were prepared by the Engineering Department in association with Pitt & Sherry as at 30 June 2000. Street lights are now included in the roads total. Previously they were identified separately.

24. NON CURRENT ASSETS - OTHER

| Hobart Water Joint authority | 6,873,165 | 6,873,165 |
|------------------------------|-------------|-------------|
| Loan Debtors | 125,996 | 136,477 |
| | \$6,999,161 | \$7,009,642 |

The valuation of the Hobart Water Joint Authority is effective as at 1 January 1997. Revaluations will be provided every 5 years.

25. CONTINGENCIES

There are currently no claims against the Council, its Councillors or any officers which are likely to result in any material liability against Council.

26. COMMITMENTS FOR EXPENDITURE

(a) Capital Commitments

There are no capital expenditure commitments as at balance date.

(b) Operating Commitments

These expenditures are payable:

Not later than one year 0 365,534

c) Finance Lease Commitments

At 30 June 2000, the Council had the following obligations under finance leases (the sum of which is recognised as a liability after deduction of future lease finance charges included in the obligation):

| The | ese | expendi | itures | are | payal | ole: |

|-----|-----|---------|--------|-----|-------|------|

| Not later than one year | 0 | 10,913 |
|---|-----|----------|
| Later than one year but not later than five years | 0 | 0 |
| Minimal lease payments | 0 | 10,913 |
| Deduct future finance charges | 0 | (277) |
| Lease Liability | \$0 | \$10,636 |
| Comprised of: | | |
| Current | 0 | 10,636 |
| Non Current | 0 | 0 |
| | \$0 | \$10,636 |

d) Operating Lease Commitments

There were no items of expenditure contracted under operating lease at balance date.

27. SUPERANNUATION

Brighton Council contributes in respect of its employees to a superannuation plan established for all Local Governments in the State. In accordance with the statutory requirements, the Council contributes to the Municipal Employees Assurance Scheme Superannuation Fund amounts determined by the Plan's actuary. As such, assets accumulate in the Fund to meet members' benefits as they accrue. If the assets of the Fund were insufficient to satisfy benefits payable to its beneficiaries, Council would be required to meet its share of the deficiency. No liability of Council has been recognised as at the reporting date in respect of the superannuation benefits for its employees. The most recent actuarial report indicates that as at 30 June 1999, the Scheme's assets were sufficient to satisfy all benefits that would have been vested under the Scheme in the event of: termination of the scheme, voluntary termination of the employment of each employee on the initiative of that employee, and compulsory termination of the employment of each employee of the employer. Superannuation contributions paid by the Council during the reporting period was \$249,470.

(b) Net Fair Values of Financial Assets and Liabilities:

The carrying amounts of cash, accounts receivable, investments, accounts payable and lease liabilities approximate net fair value. The loan portfolio owed by Council has been reviewed by Tascorp effective 30 June 2000. Following this review, it was determined that, having regard to the fixed rate of interest applicable for the remaining life of each loan, the approximate net fair value (which equates to current market value) \$7,147,558 compared to the actual value of \$6,974,034.

(c) Credit Risk:

Council undertakes dealings with a large number of customers, none of which is materially significant.

32. STATEMENT OF SIGNIFICANT BUSINESS ACTIVITIES OF COUNCIL

Brighton Council has classified its Water and Sewerage maintenance and construction as Significant Business Activities as provided by section 84(2)(da) of the Local Government Act 1993.

Statement of Cost of Operations for the year ending 30 June 2000

| Revenue | Water | | Sewerage | |
|------------------------------|-------------|-------------|-------------|-------------|
| | 2000 | 1999 | 2000 | 1999 |
| Rates | 603,987 | 596,908 | 1,345,614 | 1,274,723 |
| User Charges | 1,079,286 | 845,142 | 789,570 | 17,075 |
| Contributions | 162,050 | 162,242 | 129,278 | 123,300 |
| Total Revenue | \$1,845,323 | \$1,604,292 | \$2,264,462 | \$1,415,098 |
| Expenditure | | | | |
| Employee Costs | 74,130 | 47,303 | 73,732 | 59,910 |
| Materials, Contracts & Other | 971,003 | 912,124 | 682,989 | 414,507 |
| Interest | 75,763 | 53,778 | 89,698 | 68,111 |
| Other | | 22,894 | | 49,140 |
| Capital Costs | | | | |
| Depreciation | 261,914 | 273,984 | 256,618 | 266,666 |
| Opportunity Cost of Capital | 1,044,667 | 765,662 | 1,028,219 | 888,283 |

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT For the year ended 30 June 2000 32. STATEMENT OF SIGNIFICANT BUSINESS ACTIVITIES OF COUNCIL (continued)

Statement of Cost of Operations for the year ending 30 June 2000

| | Water | | Se | Sewerage | |
|------------------------------|-------------|-------------|-------------|-------------|--|
| | 2000 | 1999 | 2000 | 1999 | |
| Indirect | | | | | |
| Engineering & Admin | 34,109 | 36,177 | 85,273 | 90,443 | |
| Competitive Neutrality Costs | | | | | |
| Fringe Benefit Tax | 0 | 0 | 0 | 0 | |
| Stamp Duty | 0 | 0 | 0 | 0 | |
| Council Rates & Land Tax | 3,632 | 3,632 | 2,188 | 2,188 | |
| WST | 1,973 | 1,323 | 6,135 | 3,459 | |
| Loan Guarantee Fee | 4,839 | 4,571 | 5,729 | 5,411 | |
| Notional Income Tax | 150,466 | 89,462 | 382,356 | 163,895 | |
| Total Expenditure | \$2,622,496 | \$2,210,910 | \$2,612,937 | \$2,012,013 | |

Competitive Neutrality costs are shown to give an indication of the costs council would have to meet if the significant business activities as detailed, operated within the private sector.

In preparing the information disclosed in relation to significant business activities the following assumptions have applied.

- The notional opportunity cost capital was calculated by an interest rate of 9% which council has determined as an appropriate interest rate adjusted for a risk margin.
- Fringe Benefit tax is applied to actual costs where applicable
- It is assumed that stamp duty is too negligible to include
- Council Rates and Land Tax are applied directly to applicable properties currently exempt.
- Wholesale sales tax equivalents apply to an assumed 1% of materials as the majority of expenditure would be exempt from the tax.
- Loan guarantee fees are calculated on the loan outstanding for each activity multiplied by a rate of .45% as determined by Treasury.
- Income Tax equivalents were calculated by an applicable taxation rate of 36% applied to the notional accounting profit.

33. MICROWISE AUSTRALIA PTY LTD

Microwise Australia is an incorporated entity that has been formed by Brighton Council to:

- Own and manage the intellectual property contained in the PropertyWise software product.
- Create and develop new software products to meet the identified needs of existing and potential customers within local government and other public and private sectors.
- Provide software maintenance and technical support to existing customers.
- Provide upgrades and enhancements to a portfolio of products.
- Manage the relationship with marketing organisations to achieve market coverage and representation.

Currently Brighton Council has an equity investment of \$150,001 and Department of State Development has redeemable preference shares to the value of \$150,000.

33. MICROWISE AUSTRALIA PTY LTD (continued)

The directors of Microwise Australia include:

- Clr Tony Foster
- Mr. Geoff Dodge
- Mr. Greg Davoren

Audit services:

Microwise Australia has been consolidated in the current year financial statements. The financial statements only identify the DSD liability and the consolidated revenue and expenditure under notes 3(a) and 3(v) respectively due to immateriality.

34. REGISTER OF INTERESTS

Interests of Councillors notified to the General Manager in respect of any body or organisation with which the Council has major financial dealings.
