

# **“The Group” Strategic Direction and Governance Model**

## **Developing community led interventions to reduce the instance of young people entering the justice system.**

Supporting authentic social change through increased community engagement and participation.

**TO**

**Keep children and young people out of the youth justice system**

**FOR**

**BELONGING**

**Young people are connected, loved and have opportunities to achieve their goals and take pride in their community**

**Theory of Change**

### **4 Strategic areas**

#### **1. Service Coordination**

To increase access to resources, foster cooperation, reduces overlaps, identifies creative interventions

#### **2. Service Delivery**

Includes restorative, trauma informed and culturally appropriate practices and uses place based knowledge

#### **3. Participation**

young people, community members and our group of supporters feel safe, valued and heard

#### **4. Education**

Opportunities are accessible and diverse within or outside the mainstream education systems for all

### **“Underpinning ways of working ”**

#### **Monitoring & Evaluation**

Participatory, place based data collection, including funding requirements, communication tools

We will treat each other with respect

We will keep young people at the centre

We will celebrate our success

We will be curious not judgemental
